EDUCATION

Akdeniz University
Interior Architecture
2014 - 2018

Scrimba - FreeCodeCamp
Frontend Developer
2021 - 2023

TECH SKILLS

- HTML
- CSS
- SASS
- Bootstrap
- Tailwind CSS
- JavaScript
- TypeScript
- React
- Git & GitHub

SOFT SKILLS

- Active Learning
- Strong Work Ethic
- Problem Solving
- Critical Thinking

LANGUAGES

- **Turkish**   Native
- **English**   B2

HOBBIES

- Swimming
- Video Games
- Drawing
- Cycling

ABOUT ME

I'm from Turkey and I'm currently living in Munich. I have been learning frontend web development for more than two years. I have honed my skills in HTML, CSS and JavaScript and am currently focused on enhancing my expertise in ReactJS. I've learned a lot and I am eager to learn especially more about ReactJS. I find it fascinating with its components structure, reusable and maintainable code.

I've studied from several resources such as FreeCodeCamp, Scrimba and Youtube videos from great developers. I also like to keep myself updated reading articles. I'm always seeking to increase my knowledge.

My greatest strengths are my willingness to learn and my determination to finish a given task as best as possible. I enjoy the process of turning ideas into reality using creative solutions. I'm always curious about learning new skills, tools, and concepts.

EXPERIENCES

INTERIOR ARCHITECTURE

Banlio Product & Interior Design
Intern - 2016

Working as an intern in a small working group allowed me to gain much faster professional experience and take more responsibility as a team member.

INTERIOR ARCHITECTURE

Freelancer
2019-2021

Working as a freelancer, sometimes alone or with a team, allowed me to quickly adapt to different conditions and improve my time management skills.

CERTIFICATES

| Certificate	Date	Issuer
Responsive Web Design	Feb 2022	FreeCodeCamp
Learn Responsive Web Design	May 2022	Scrimba
Learn UI Design	Jun 2022	Scrimba
JavaScript Deep Dive	Sep 2022	Scrimba
Advanced React	Sep 2022	Scrimba
The Frontend Developer Career Path	Sep 2022	Scrimba
JavaScript Algorithms and Data Structures	Oct 2022	FreeCodeCamp
Front End Development Libraries	Nov 2022	FreeCodeCamp

MY PROJECTS

QUIZZICAL
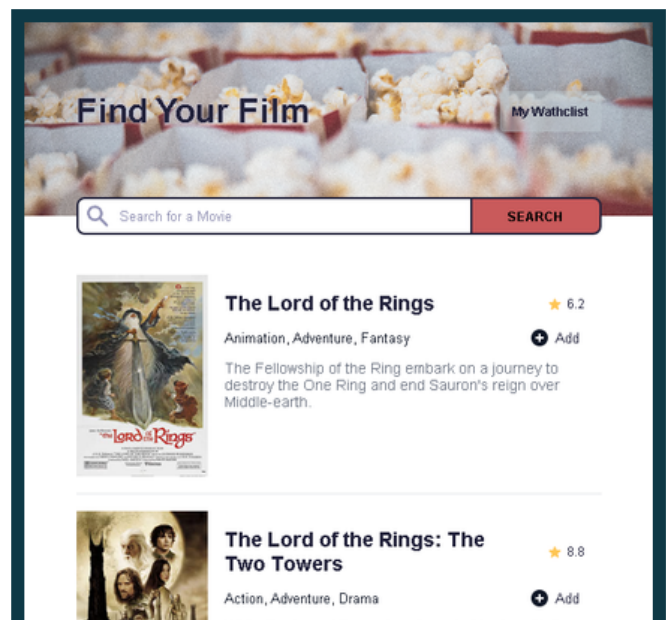

- HTML
- CSS
- JavaScript
- React
- API

Quizzical is a project where user can answer some random questions coming from an API. When user hits the check answers button, the answers that user gives will be compared with the correct ones. Afterwards user can see how many questions were answered correctly.

MOVIE WATCLIST

- HTML
- CSS
- JavaScript
- React
- API

App allows user to search movies by name. When data is returned from API, App shows user a list of matched movies and some details. User can add movies to their watchlist. App stores them in Local Storage so user can access their watchlist anytime even if they close the browser.
